

## 车载钻机

### MOBILE DRILLING RIGS

车载钻机系列产品有ZJ10、ZJ15、ZJ20、ZJ30、ZJ40，钻深分别为1000m、1500m、2000m、3000m和4000m，最大静载荷从1125kN到2250kN，具有作业负荷大、性能可靠、越野能力强、移运方便、作业和搬迁费用低等特点，适应中浅井钻井作业。

Mobile drilling rigs are available in ZJ10, ZJ15, ZJ20, ZJ30 and ZJ40 series with Drilling Depth of 1000m、1500m、2000m、3000m and 4000m respectively and max. static hook load ranging from 1125kN to 2250kN. The mobile drilling rig features heavy working load, reliable performance, good cross-country capability, easy mobilization and low cost and is applicable for shallow to medium deep well service.

#### 车载钻机性能特点：

- 1、动力传动系统采用高性能发动机和变速箱；
- 2、主滚筒采用整体式里巴斯绳槽，主刹车可选用带式刹车或液压盘式刹车；
- 3、可选配捞砂滚筒和司钻控制房。

#### Characteristics:

1. Power system complete with high performance engine and transmission;
2. Integral Lebus groove on main drum with band or disc brake options;
3. Optional sand drum and driller's cabinet.
