

钻井机械 DRILLING EQUIPMENTS

公司是国内大型石油钻机制造、修理和配套厂家，拥有先进的钻机制造设备和设施，具有同时配套12台大型钻机的测试场地和年产50台钻机的生产能力。公司先后研发了可钻井深1500m~9000m的七个系列钻机，包括机械驱动、直流电驱动、变频电驱动和机电复合驱动的陆地、沙漠、海洋、车载、低温、轨道等各种类型的钻机。

As a renowned oil rig supplier in China, the company has advanced manufacturing equipments and facilities to make and repair rigs and offer support equipments. The rig output is about 50 sets per year. Spacious testing yards can accommodate 12 sets of large rigs at the same time. Seven series of rigs in various types have been developed to handle well depth of 1500m-9000m(750hp-3000hp). Rigs of mechanical drive, DC motor drive, AC variable frequency motor drive, Mechan-Electric drive are available for land, desert and offshore applications or can be used in cryogenic environment. Skid-mounted rigs and mobile rigs are specifically designed for quick mobilization and demobilization.
