

电传控制 ELECTRIC DRIVE EQUIPMENTS

电气控制系统 ELECTRIC CONTROL SYSTEM

石油钻机交、直流电控系统 DC & AC ELECTRIC CONTROL SYSTEM FOR DRILLING RIGS

公司石油钻机电控系统产品涵盖3000米-7000米VFD（交流变频传动）钻机、SCR（直流调速）钻机和机电复合驱动钻机。经过十多年的发展，公司具备年产20台（套）石油钻机电控系统的能力，产品广泛应用于国内外油田，深受用户的好评。

We can provide electric control systems for 3000m to 7000m (750hp-2000hp)AC VFD rigs, DC SCR rigs and Mechan-Electric rigs. After over ten years' development, the annual capacity is up to 20 sets, which are widely used at home and abroad and well received by users.

油井控制柜 WELL CONTROL CABINET

公司在采油设备电气控制装置研发制造方面具有较强的实力和丰富的经验，产品主要涉及抽油机、螺杆泵、潜油电泵等采油设备的电气控制装置。可对采油设备的电机电压、电流、冲程、冲次、载荷、转速等参数进行实时监测并显示。另外可根据用户要求，采用远程数据传输和故障诊断技术，对机组实现全方位的监测和控制。产品具备高效、安全、节能、智能化等特点，为国内外用户带来良好的经济效益。

Highland electric company has strong strength and rich experience in developing and researching electric control device. Products mainly ranges from electric control devices for pumping unit, PCP, ESP, etc. production equipment, which can real time monitor and display the voltage, current, stroke length, stroke, load and rotation speed etc. parameters of the production equipment. Remote data transmission and fault diagnosis can be added upon user's request to help fully monitor and control the unit. The products are high efficient, reliable, energy saving and intelligent and has brought great economic benefits for users home and abroad.
